

Public consultations have core importance in participatory democracy and the model in Figure S4-1 was conceived as part of VCPS community documentation. An OWL implementation of such public consultation was meant to be developed and made public, with dedicated attention. Considerations of this public consultation with respect to the OPS and formal existent instances were envisioned as well. This public consultation model is observed here for completeness of exposition and further details goes beyond the scope of this article. A public consultations along the lines of a recent Presidential decree [2] was formalized in OBS OWL and in VBS SKOS [1].
